Needs and Uses: On August 13, 2014, the Commission released the Order, FCC 14-118, published at 79 FR 55367, September 16, 2014, adopting final rules – containing information collection requirements – to enable the Commission to implement text-to-911 service pursuant to the Second Report and Order, FCC 14-118, released August 13, 2014. The Second Report and Order adopts new rules to commence the implementation of text-to-911 service with an initial deadline of December 31, 2014 for all covered text providers to be capable of supporting text-to-911 service. The Second Report and Order also provides that covered text providers then have a six-month implementation period—they must begin routing all 911 text messages to a Public Safety Answering Point (PSAP) by June 30, 2015 or within six months of a valid PSAP request for text-to-911 service, whichever is later. To implement these requirements, the Commission seeks to collect information primarily for a database in which PSAPs will voluntarily register that they are technically ready to receive text messages to 911. As PSAPs become text-ready, they may either register in the PSAP database (or, if the database is not yet available, submit a notification to PS Docket Nos. 10-255 and 11-153), or provide other written notification reasonably acceptable to a covered text messaging provider. Either measure taken by the PSAP shall constitute sufficient notification pursuant to the adopted rules in the Second Report and Order. PSAPs and covered text providers may mutually agree to an alternative implementation timeframe (other than six months). Covered text providers must notify the FCC of the dates and terms of the alternate timeframe that they have mutually agreed on with PSAPs within 30 days of

the parties' agreement.

Additionally, the rules adopted by the Second Report and Order also include other information collections for third party notifications that need to be effective in order to implement text-to-911, including necessary notifications to consumers, covered text providers, and the Commission. These notifications are essential to ensure that all of the affected parties are aware of the limitations, capabilities, and status of text-to-911 services. These information collections will enable the Commission to meet objectives to commence the implementation of text-to-911 service as of December 31, 2014 in furtherance of its core mission to ensure the public's safety.
